JSMARTech : Journal of Smart Bioprospecting and Technology

JSMARTech : Journal of Smart Bioprospecting and Technology (p-ISSN 2686-0808; e-ISSN 2714-7894) is an Open Access Scientific Journal published by Research Center for Smart Molecule and Natural Genetics Resources, Universitas Brawijaya, Malang, East Java, Indonesia since 2019. It covers all aspects of bioprospecting and technology, including biochemical, genetics, biotechnology, bioinformatics, natural product, metabolism, biopharmaceuticals, biodiversity, systematics, biomedical, molecular biology, molecular genetics, nutrigenomic, herbal medicine, DNA barcoding, nanotechnology, agriculture, and bioremediation. The journal publishes a manuscript written in English for original research papers, short communications, and review articles. JSMARTech publishes two issues each year.

EDITORIAL TEAM

Editor in Chief

Prof. Dra. Fatchiyah, M.Kes., Ph.D

Biology Department, Faculty of Mathematics and Natural Sciences, Universitas Brawijaya, Indonesia

Managing Editor

Anna Safitri, M.Sc., Ph.D

Chemistry Department, Faculty of Mathematics and Natural Sciences, Universitas Brawijaya, Indonesia

Eko Suyanto, S.Si., M.Sc.

Biology Department, Faculty of Mathematics and Natural Sciences, Universitas Brawijaya, Indonesia

Dewi Ratih Tirta Sari, S.Si., M.Si

Biology Department, Faculty of Mathematics and Natural Sciences, Universitas Brawijaya, Indonesia

Editorial Board

Prof. James R. Ketudat Cairns,

School of Chemistry, Institute of Science, Suranaree University of Technology, Thailand

Prof. Takeshi Ohta

Faculty of Agriculture, Kyoto University, Japan

Prof. Mikio Nishizawa, M.D., Ph.D

Department of Biomedical Sciences, College of Life Sciences, Ritsumeikan University, Japan

Associate Professor Roswanira Abdul Wahab, Ph.D

Chemistry Department, Faculty of Science, Universiti Teknologi Malaysia, Malaysia

Sakesit Chumnarnsilpa, Ph.D

School of Chemistry, Institute of Science, Suranaree University of Technology, Thailand

Chandra Kirana, M.Sc., Ph.D

Faculty of Health and Medical Sciences, The University of Adelaide, Australia

Tomohiko Sasase, Ph.D

Central Pharmaceutical Research Institute, Japan Tobacco, Inc., Japan

TABLE OF CONTENTS

Cover page	i
Editorial Team	ii
Table of Contents	iii
Histopathological Profile of Therapeutic Doses of Mango Mistletoe Methanolic Extract (MMME) in Cardiac of Hypertensive Rats (DOCA-Salt)	48
Effects of Mango Mistletoe (<i>Dendrophthoe pentandra</i> L. Miq) Extracts on Brain in Hypertensive Rats Treated with Deoxycorticosterone Acetate (DOCA)-Salt	55
Role of Superoxide Dismutases (SODs) in Hypertensive Rats After Administration of Mango Mistletoe Methanolic Extract	61
<i>In Silico</i> Analysis of rbcL Protein and D-Ribulose 1,5-bisphosphate Bond	65
Bilateral midbrain transection induced hyperphagia accelerates the development of diabetes in Spontaneously Diabetic Torii (SDT) rats	69
In silico study: Potential prediction of <i>Curcuma longa</i> and <i>Cymbopogon citratus</i> essential oil as Lipoxygenase inhibitor	75
Ocular changes –cataract and retinal lesion- in Spontaneously Diabetic Torii (SDT) fatty rats, an obese type 2 diabetic model	81
